indopack 2022: The Preferred Trade Exhibition for Indonesia’s Packaging Industry

indopack, member of the interpack alliance and modelled after the expertise of the leading global trade fair in packaging and related processing industries – interpack, organized by Messe Düsseldorf, Germany – is strategically designed to tap on the synergies of the many packaging-related sectors in Indonesia. The trade fair offers a complete range of machinery and equipment for packaging production, materials processing, manufacturing, components and packaging solutions.

Join us in cultivating local and cross-border business relationships in Indonesia and the region’s flourishing packaging industry!

Exhibition Profile
- Packaging machines, equipment, appliances and accessories
- Packaging production technology
- Packaging materials, means and aids
- Processing machinery and equipment
- Services for the packaging industry

Why indopack 2022?

Indonesia’s Economy

- Indonesia has the 4th highest population in the world
- Middle-class population to increase to 165 million by 2030
- Projected to become the 7th largest economy by 2030

Indonesia’s Packaging Industry

- Indonesia’s packaging industry is expected to grow at a CAGR of 5.2% in the next two years
- Flexible packaging and rigid plastics account for 60% of Indonesia’s packaging material segment, contributing to the increase in demand for plastics in the country
- Paper and board packaging is estimated to reach a CAGR of 4% in the next two years
- Demand for corrugated cardboard is estimated to increase by 22.1%

Indonesia’s packaging market valued at US$6.2 billion

Sources: International Monetary Fund, Euromonitor International, UN DESA (Population Division), The Jakarta Post, Indonesian Packaging Association, Nikkei Asian Review, Smithers Pira, ResearchGate
